Julia Calnek maintains a combined litigation and transactional practice focused in the oil and gas industry, onshore and offshore construction and architectural and engineering fields both, domestically and in the international arena. Her blended practice enables her to assist clients in contract negotiations and document preparation related to oil and gas transactions and maritime and onshore construction projects, as well as representing these types of clients in the resolution of disputes through negotiation, litigation or arbitration.

Ms. Calnek is regularly involved in preparing and negotiating agreements utilized in the energy sector, ranging from standard master service agreements, charter party agreements and engineering and consulting agreements, to contracts for major maritime construction projects including EPCI & Operations and Management agreements. Ms. Calnek also assists clients in the drafting and negotiation of construction and design contracts, whether acting as owners, general contractors, subcontractors, engineers or architects. She also serves as general counsel to an international engineering, project management and marine construction firm. In addition to her transactional practice, Ms. Calnek maintains a particular emphasis on resolving complex commercial and engineering disputes through litigation and arbitration.

Representative Matters

- Prevailed in arbitrating claim for indemnity arising out of the collapse of a drill rig in which client faced potential exposure to personal injury and property damage claims in excess of \$15 million
- Won arbitration involving multimillion dollar claim for pipeline contractor
- Successfully represented Instrumentation and Electrical contractor in arbitration or claims for non-payment by owner
- Assisted in the successful negotiation of multiple EPCI & Operations Contracts for international offshore oil and gas projects valued between \$500 million to \$1.5 billion

Julia Calnek, *Continued*

- Negotiated \$235 million in construction financing agreements on behalf of general contractor
